Bobcat CL Suite
Software Installation from CD

Use the following steps to install the Bobcat CL Suite supplied on a CD. Note that 'click' refers to the left mouse button.

1. If a version of Bobcat CL Suite was previously installed on this machine, then you must first remove it:

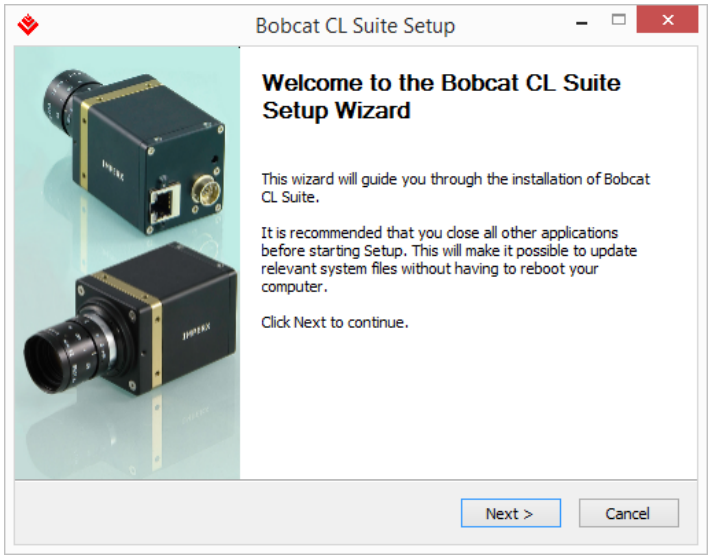
   To remove the application files:

   1.1 Click on *"Start"*.
   1.2 Click on *"Settings"*.
   1.3 Click on *"Control Panel"*.
   1.4 Double click on *"Add or Remove Programs"* for Windows XP or *"Programs and Features"* for Windows Vista and Windows 7.
   1.5 Click on *"Bobcat CameraLink"*.
   1.6 Click on *"Remove"*.
   1.7 Click on *"Bobcat Upload Manager"*.
   1.8 Click on *"Remove"*.
   1.9 Click on *"Imperx Tool Kit"*.
   1.10 Click on *"Remove"*.
   1.11 If the 'InstallShield Wizard' pops-up then follow the instructions on the screen and remove each application.

2. After having removed a previous version or if a version of Bobcat CL Suite was NOT previously installed on this machine then:

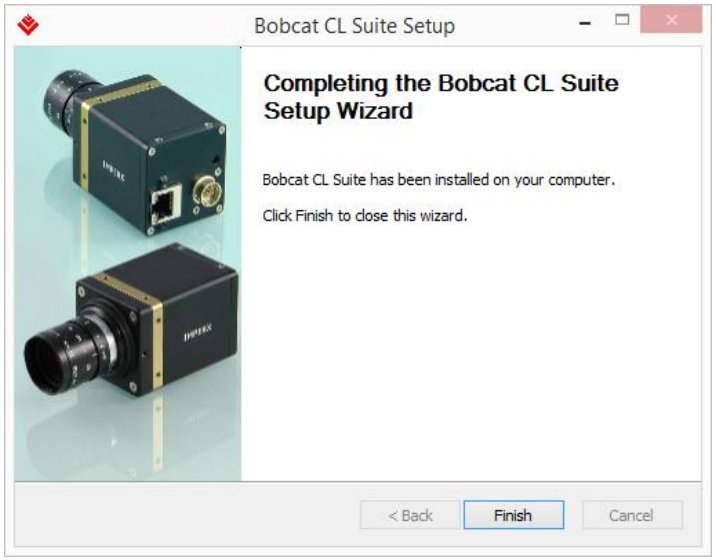
   The first step is to install the application files:

   2.1 Insert the Bobcat CL Suite software CD into the appropriate drive; the setup.exe file will run automatically. Note: If it does not start automatically, click on *"Start"*, *"Run"*, enter or browse to *"(CD drive): setup.exe"* and click *"OK"*.
   2.2 Wait for the "Bobcat CL Suite Setup Wizard" screen to appear.



2.3 Follow the on-screen instructions.

2.4 Click *"Finish"*. This completes the software installation.



2.5 Reboot your computer.
