

Imperx Cameras- Aircraft Requirements

Imperx, Inc. offers cameras that are lab tested and certified for use inside, and on the exterior, of aircraft. These cameras* meet the requirements of the RTCA D0-160 aircraft standards and certificates are available upon request. **Applicable to specific camera models.

Imperx, Inc. is certified with the following standard for several individual cameras:

DO-160: *Environmental Conditions and Test Procedures for Airborne Equipment*

Applicable to specific models. Certificates available upon request.

Description

RTCA is a private, not-for-profit association founded in 1935 as the Radio Technical Commission for Aeronautics. We are the premier Public-Private Partnership venue for developing consensus among diverse, competing interests on critical aviation modernization issues in an increasingly global enterprise.
